

POLICE BARRIERS

The new BFAG.net® police barriers, foldable

**Developed by the BFAG.net®
in accordance with the current
provisions of law - tried and tested**

- > necessary safety distance between struts 120 mm
- > 13 struts instead of the previous 9 struts
- > foldable, self-locking bolts
- > connector hooks adjustable to the right and left
- > space for company logo 120 mm x 100 mm
- > possible to unlock and connect only at an angle of 45 degrees
- > space-saving construction (folded)
- > appropriate transport pallet available
- > fits transversely on to truck

foldable

- > bag rest possible, for all barriers
- > hook positioned on the left of the barrier, also possible on the right
- > length 2,161 mm, width 1,100 mm, height 1,100 mm

The police barrier is also locked when in the folded up position due to the self-locking bolts

Bolts self-locking due to heavy weight. Bolts locked in folded up and unfolded position

STG 35 Multi - stacking pallet
Possible to stack up to 4 pallets one on top of the other
Supports split and adjustable
Here loaded with police barriers, see STG 35

By dismantling and mounting on different feet, the police barrier can also be used as an adequate BFAG.net® gate barrier

POLICE BARRIERS

Police barrier C3 and gate system C6

Police barrier - rigid and foldable

For controlling and managing crowds safely at events

Police barrier, rigid

Dimensions: L 2,088 mm x 1,200 mm

Police barriers with add-on components

- > visitor gate channels/separation systems are structural components enabling entry control to a room/area. On the one hand people can be checked with regard to their access right and on the other hand access can be organized in orderly lanes.

Also available with baseplate. Please enquire about the brochure „Gate Barriers“!

Bag rests can be secured to all barriers.
Table suitable for all barrier systems.

durable - portable - sturdy
